

THE GREEN PACKING SOLUTION FOR ENVIRONMENTALLY CONSCIOUS PRODUCERS

## Biodegradable self shrinking seals

### Benefits of using a cellulose self shrinking seal

- 100% biodegradable
- Reduces your carbon footprint
- Made from renewable resource 'cellulose'
- Shrinks in the natural environment
- No machinery needed, hand applied
- Ideal tamper evident solution
- A secure wrinkle free seal
- Coloured, metallic, printed & perforated
- Applied around plastic, metal or glass
- Shrinks up to 40% its original size
- Stops counterfeiting & ensures integrity of product
- Prevents evaporation and hides fill lines
- Eliminates dust, dirt & dampness
